Shaping Skills ...Creating Winners

All solutions that work for your future.

English Primer

Campus to Corporate Program

Group Discussion / Personal Interview

AN OVERVIEW

TALENT SHAPERS has been envisaged as a valued service provider to develop the intellectual and emotional quotient of human resources. It aims to enhance the quality of manpower through their soft skills development. It aims to manage the process of learning from analysis of needs to content design and delivery. Talent Shapers has its own network of empanelled trainers to manage the delivery of training. Talent Shapers aims to create a skill pool on a Pan India basis. Our experienced trainers come from a spectrum of industries and government bodies to ensure that what we teach is relevant and helps the student in performing well in the professional arena.

We provide holistic training in behavioural and soft skills required in the corporate world, and industry specific soft skills.

We also provide programs tailored specifically to the needs of our students. Our English basics course is for students looking to brush up their English grammar, conversational English and English writing skills.

We also have a Campus to Corporate program which is aimed at preparing college students in developing those skills; like presentation skills, telephone skills, business etiquettes and power dressing; that are essential for success in a corporate setting. We also train students in group discussions and personal interviews, which have become the leading methods of admission in MBA colleges and for various other competitive exams

Apart from these we also give training designed specifically to help students in securing and performing in jobs in the BPO / Call Centre, Insurance and Retail industry.
